B2M

Business to Mission

Organizational Plan | Draft v1 | Prepared by Johan | October 2026

1. Executive Summary

B2M is a community of Christian marketplace business owners who pray together, help one another, expand into new countries together, and give a portion of their profits to raise the next generation of godly leaders through a scholarship foundation.

The model is built on four pillars: Pray, Partner, Pioneer and Raise. It begins with a pilot connecting Christian business owners in Malaysia with a Christian film maker, so that films and products can reach new nations together and the fruit can strengthen churches and believers.

2. Vision, Mission and Core Values

Item	Statement
Vision	Business becomes ministry, and nations are blessed through Christian entrepreneurs working together.
Mission	Gather Christian business owners to pray, support one another, enter new markets together, and fund the raising of God's people.
Core values	Prayer first; honest business; mutual help; local people first; transparent finances.

Note: “Business as Mission” (BAM) is an established concept in the wider mission movement, including the Lausanne Movement. B2M differs by combining an owner network, practical market-entry support and a scholarship foundation in one body. Readers are encouraged to review the original Lausanne BAM materials.

3. Background: Why Malaysia, Why Now

- **Committed givers.** Malaysian business owners serve their churches faithfully and also support struggling churches, such as those in the Philippines, from their business income.
- **A closed door for direct outreach.** Malaysia is a Muslim-majority country, so direct evangelism is restricted. Business and culture provide an indirect, lawful way to bless churches and Christians.
- **An open door for networks.** Malaysia is a multi-ethnic nation, giving a natural bridge to many peoples and countries.
- **Complementary needs.** Owners want their products to reach the U.S. and other markets; a Christian film maker wants films shown in many nations. Their needs fit together.

4. The Four Pillars

Pillar	Purpose	Key activities
Pray	Prayer community	Monthly online prayer meeting; quarterly in-person gathering;

Pillar	Purpose	Key activities
		shared prayer requests for each member and nation.
Partner	Mutual support	Business referrals and supplier matching; mentoring between senior and junior owners; pool of finance, legal and HR advisers.
Pioneer	Cross-border expansion	Country entry guides; shared office space; introductions to local partners and churches; support with company set-up and visas.
Raise	Scholarship foundation	Scholarships for seminarians, missionary children and local young leaders, combined with business mentoring.

5. Pilot: Film Meets Marketplace

The first B2M collaboration brings together a Christian film maker and Christian business owners from Malaysia. Details of each owner's business will be shared in person at the first meeting.

	Film maker	Malaysian business owners
Hope	Christian films shown in many countries, so non-believers encounter the gospel naturally, and revenue is generated.	Products reach the U.S. and other nations, and God's Kingdom grows as a fruit of that expansion.
Need	Distribution channels, funding, access to multi-ethnic audiences.	Overseas market access, trusted partners, expansion opportunities.
Can offer	Cultural content and storytelling that opens doors to hearts.	Church networks, giving from business income, multi-ethnic market experience.

Proposed agenda for the first meeting:

- Introductions and background of each participant
- Presentation of the film and its message
- Presentation of the owners' businesses and expansion plans
- Sharing of needs and exploration of collaboration
- Next steps and prayer

6. Organization and Membership

Body	Role
General assembly	All members; approves charter, annual report and budget.
Board (7–9)	Five business owners, two pastors or missionaries, one or two professionals; sets direction and oversees finances.
Secretariat	Secretary-general plus one or two staff; daily operations.
Country chapters	Korea, Malaysia, Philippines, Thailand at the start; more later.
Industry groups	IT, manufacturing, retail, education, food and beverage, media.
Scholarship foundation	Separate legal entity with an independent selection committee.

Membership	Who
Full member	Christian owners of operating businesses; sign the covenant, pay dues and commit a giving percentage.
Partner member	Professionals, supporters and missionaries who advise or give.
Young member	Founders with under three years in business and aspiring entrepreneurs; receive mentoring.

7. Funding Model (Illustrative)

The figures below are assumptions for planning, not commitments. Members choose their own giving level (for example 1%, 3%, 5% or 10% of net profit).

Assumption	Value
Number of members	100
Average annual net profit per member	KRW 100 million
Giving rate	3%
Annual giving pool	About KRW 300 million

Use of funds	Share	Amount (per year)
Scholarship foundation	60%	KRW 180 million
Mission and local ministry support	25%	KRW 75 million
Operations (secretariat, events)	15%	KRW 45 million

At about KRW 3 million per scholarship, the foundation could support roughly 60 students a year. Monthly dues (about KRW 30,000–100,000) would cover operating costs separately.

8. Scholarship Foundation

- Target recipients: seminary students, children of missionaries, and promising young leaders in partner countries.
- Selection by an independent committee; criteria and results published annually.
- Each scholar is paired with a business mentor to develop both character and professional skill.
- Start by giving through an existing registered charity or church fund, then establish an independent foundation as funds grow.

9. Legal Structure (Korea)

Stage	Action
Stage 1	Start as an unincorporated association with a charter and covenant.
Stage 2	Register as a non-profit association.

Stage	Action
Stage 3	Establish the scholarship foundation as a public-interest foundation, which requires approval from the competent authority and an endowment.

Requirements must be confirmed with a lawyer and tax adviser. Country chapters must follow local law.

10. Roadmap

Timeline	Goal	Main tasks
0–3 months	Preparation	Recruit 7–10 founding members; draft vision paper, charter and covenant; hold the pilot meeting.
3–6 months	Trial run	Start monthly prayer meetings; reach 30 members; settle name and logo.
1 year	Establish	Form chapters in three countries; award first scholarships; complete the first joint expansion case.
3 years	Grow	150 members; register as an association; prepare the foundation.
5 years	Mature	500 members in five or more countries; annual giving above KRW 1 billion.

11. Risks and Safeguards

Risk	Response
Profit motives overshadow mission	Ethics code and annual peer review.
Lack of financial transparency	External audit and public annual report.
Dependence on one leader	Board-led governance with fixed terms.
Legal or religious-law violations abroad	Local legal counsel in each country; comply with local regulations, including film classification and censorship rules; keep all activity lawful and transparent.
Sensitive communication	Use discreet wording in shared materials for restricted countries; keep detailed discussions in person.

12. Next Steps

- Hold the first meeting with the film maker and the Malaysian business owners.
- Confirm each party's concrete needs, timeline and first joint project.
- Gather 7–10 founding members and finalize the vision paper.
- Draft the charter, covenant and the first-year budget.

We pray that this first gathering becomes the beginning of a lasting partnership as B2M.
